

blackbelt[®]360 Price

Consistent, controlled device pricing across your operation

Blackbelt360 Price applies a consistent price to every device using a pricing matrix you configure. Blackbelt360 supplies the framework, you set the values - so trade-in, disposition and resale pricing stays consistent, defensible and firmly under your control.

Your matrix, your control

You configure the pricing matrix. Blackbelt360 gives you the framework, you set the values - your logic, applied consistently.

Priced from the grade

Every graded device is priced the same way, every time, with no manual lookup.

Trade-in, disposition and resale

One tool for all three pricing decisions.

Auditable pricing

Every price tied back to the device's grade and record.

DEVICE COVERAGE

Prices the devices Blackbelt360 grades - smartphones, tablets and computers.
